---

Computer Science undergraduate at Nile University moving toward UI/UX design and user-centered product development. Completed the seven-course Google UX Design Professional Certificate — research, wireframing, high-fidelity prototyping in Figma and interface build — alongside coursework in data structures, databases and systems programming. Looking for a UX design job where research and prototyping sit close to engineering.

## EDUCATION

---

Bachelor of Science in Computer Science — Nile University *Expected Graduation: 2027*

- Relevant Coursework: Data Structures, Algorithms, Database Systems

Thanaweya Amma — Thebes International Schools *Graduated: 2023*

## CERTIFICATIONS

---

Google UX Design Professional Certificate — Coursera *Completed*

- Seven-course program covering the full design process: research, wireframing, prototyping and interface build.
- Foundations of User Experience (UX) Design
- Start the UX Design Process: Empathize, Define, and Ideate
- Build Wireframes and Low-Fidelity Prototypes
- Conduct UX Research and Test Early Concepts
- Create High-Fidelity Designs and Prototypes in Figma
- Build Dynamic User Interfaces (UI) for Websites
- Design a User Experience for Social Good & Prepare for Jobs

## WORK EXPERIENCE

---

Sales Representative — Valu Egypt *1 Month*

- Worked a one-month sales role at valU, a leading Egyptian fintech company that pioneered Buy-Now-Pay-Later (BNPL) solutions in the MENA region.
- Worked as a field salesman, approaching people and students directly to explain the product and convince them to open a valU account.
- Handled the full conversation independently — pitch, objection handling and sign-up — without a team to fall back on.

## SELECTED PROJECTS

---

### Urban Real Estate Market Analysis — *Data Analysis Course Project*

Dec 2025

- Analyzed 1,000 neighborhood-level data points across 10 major U.S. metropolitan areas to uncover socio-economic drivers of property value and growth.
- Applied correlation analysis to evaluate relationships between tech employment density, school quality, short-term rental activity, and property price trends.
- Synthesized findings into strategic, data-driven investment recommendations highlighting high-growth and best-value markets.

### Simplified Init System (Process Manager) — *Team Project*

May 2026

- Implemented a basic init system that starts and stops processes based on a configuration file, similar in concept to systemd/init.d.
- Collaborated with a team to design process lifecycle management, configuration parsing, and process control logic.

### Ophthalmology Department Database System — *Academic Project*

May 2026

- Designed and implemented a relational database system to manage core records and day-to-day operations for an ophthalmology department.

#### Additional projects

- University Management System (C++) — student records, enrollment and waitlist features on optimized data structures. 2023–2024
- Inventory Management System (C) — full CRUD with binary file persistence, audit logs and a command-line interface. 2023–2024
- Minesweeper Game (Python) — procedural board generation, core game logic and event-driven interactive feedback. 2023–2024

## LEADERSHIP & EXTRACURRICULAR ACTIVITIES

---

### Vice Head, Operations Committee — Student Union, Nile University

Current

- Support the coordination and execution of Student Union operations, events, and initiatives.
- Contribute to team leadership, planning, and cross-committee collaboration within the university community.

### Team Leader — 22nd UGRF Organizing Team

Aug 2026

- Led a team within the organizing committee for the 22nd Undergraduate Research Forum.

### Usher & Rooms Organizer — IAMOT 2026 (*International Association for Management of Technology*)

Jan 2026

- Contributed to the organization of IAMOT 2026 in Egypt, an international academic conference, by serving as an usher and rooms organizer.
- Communicated directly with international attendees in English, providing directions, session information, and on-site support throughout the event.

## SKILLS

---

### Design & UI/UX

- Figma
- User Research & Personas
- Wireframing & Prototyping
- Usability & Accessibility Principles
- Design Thinking, UX Case Study Development

### Programming & Technical

- C++, C, Python, Java, SQL
- HTML, CSS, React
- Microsoft Office, Google Workspace

### Soft Skills

- Teamwork & Collaboration, Problem-Solving, Communication, Leadership, Presentation Skills

### Languages

- Arabic: Native · English: Fluent

## INTERESTS

---

- Competitive programming (Vjudge, Codeforces) · Tech blogging
